This year the Nominating committee had a wealth of candidates step forward and let their names stand to run for Council. The committee met four times and established a slate of twelve candidates for four vacant engineering positions and two candidates for one vacant geoscientist position. Additional nominations may be made from the membership up to 42 days prior to the Annual General Meeting.

In addition to securing candidates, the committee modified the nomination platform requirements by adding three common questions, to assist the membership in selecting candidates for Council.

The chair of the Nominating Committee is also responsible for the committee that appoints the Appointed Councillors whose terms have ended. This year two of the Appointed Councillors terms expired, however, both have agreed to let their names stand for their third, and final, term. In accordance with the Act and Bylaws, consent letters were received from the Minister of Labour and Immigration, Dean of the Faculty of Engineering at the University of Manitoba and the Provincial Ombudsman approving their appointments for another term.
