R. N. Matthews
I. McKay
J. Reinsch (Lay Representative)
J. B. Smith
V. Tanner
S. Walkes

The Investigation Committee's mandate is to investigate complaints and concerns received from both the public and members of the Association, as well as to consider questions on professional conduct received from Association members. The actions of the Committee are conducted under the authority of Part 9 of *The Engineering and Geoscientific Professions Act* and are supplemented by the Association's *By-Law 15* and the *Code of Ethics for the Practice of Professional Engineering & Professional Geoscience*.

The Committee held ten meetings between September 1, 2016 and June 30, 2017. In addition, numerous sub-committee meetings were held to review the various complaints, undertake interviews and prepare draft Findings Reports for the Committee's review. There were 15 new files opened; five were received from members of the public, three from civic Authorities-Having-Jurisdiction, two from professional members, and five initiated directly by the Investigation Committee. Of the 15 files, seven were related to professional skills, five related to conduct of the member, and three to both skill and conduct. The year closed with 24 files under active investigation.

On behalf of the Investigation Committee, I would like to thank the Engineers Geoscientists Manitoba support staff, Lorraine Dupas and Mike Gregoire, for their continuing support and dedicated service to the committee.
