

Resolution #2

Resolution
for deliberation at the 2017 Annual General Meeting of
The Association of Professional Engineers and Geoscientists of Manitoba

Whereas Bylaw 5.4 calls for Robert's Rules of Order, which in turn call for voting to be by voice, rising or show of hands/cards, and whereas voting, at previous APEGM meetings, has been by raised cards, be it resolved that cards be provided for voting at all general meetings of APEGM, and that all such votes be by raised hands/cards. Secret class-room style polling, open to anyone with a transmitter is not a legitimate voting process; it is even worse when only one person sees the actual output of the system.
