ADDITIONAL INFORMATION

Professional Misconduct or Unskilled Practice

The Engineering and Geoscientific Professions Act defines Professional Misconduct or Unskilled Practice as conduct that:

- a) is detrimental to the public interest;
- b) is conduct unbecoming a professional engineer or professional geoscientist;
- c) is misconduct;
- d) contravenes this Act or the by-laws or the code of ethics;
- e) displays a lack of knowledge of or lack of skill or judgment; or
- f) demonstrates incapacity or unfitness to practise or demonstrates that the person is suffering from an ailment that might, if the person is allowed to continue to practise, constitute a danger to the public;

Engineers Geoscientists Manitoba Code of Ethics

The Code of Ethics ensures that practitioners apply their specialized knowledge and skill at all times in the public interest, with honesty, integrity and honour, and conduct themselves in a spirit of fairness and tolerance when dealing with fellow professionals. As a general guide, the Code of Ethics outlines the spirit of association member's professionalism. Failure to follow this code may be considered unskilled practice, professional misconduct, or both.
