

## ***Do you Need a Certificate of Authorization?***

Does my corporation need to be registered? What are my ethical obligations to ensure that my organization is compliant with the Engineering and Geoscientific Professions Act? Find out the answer to these questions and others you might have for the Professional Standards Officer.

**Speaker: Michael Gregoire, P. Eng., B. Env. D.:**

As the Professional Standards Officer at APEGM, Michael provides assistance to Investigations, Discipline, Enforcement, Legislation, Standards, and the new CPD Program. Prior to taking on this role in 2008, Michael worked in the world of consulting engineering, where he provided solutions to problem buildings.
