

TECHNICAL PROGRAM

Student Innovation in Biomedical Engineering, Satellite Design, and Sustainable Energy

Hosted by John Pacak, P.Eng., (InnovoXL) Vice-Chair of the Friends of Engineering, this session will feature:

1. Matt Driedger, Mechanical Lead of UMSATS (U of M Space & Technology Society), one of the largest multidisciplinary student groups at the U of M,
2. Derek Neufeld, a recent grad, doing research in sustainable energy, and
3. Paul White, People's Choice winner of the 2016 3MT competition, will share on his work in the treatment of Alzheimer's Disease.
