EMPLOYERS SINCE GRADUATION:	Dillon Consulting Ltd, Civil EIT, 2017-present

PLATFORM PART 1 - THE PUBLIC OF MANITOBA

The Association governs and regulates the professions in the public interest. What is, or what should, Council be doing to ensure that its governance is in the public interest and why?

To ensure that its governance is in the public interest the Council should be supporting, encouraging and leading efforts to diversify its membership. The Council should also ensure that decisions made consider all of its membership and not just the majority demographic. As engineers and geoscientists, we are responsible to the public, and it is important that our membership reflects and considers the diversity of the people we serve.

PLATFORM PART 2 - THE ASSOCIATION

Council sets the expectation for the Association by defining the Ends. What is, or should be, the most important End and why?

E-5 Practitioners reflect the diversity of the public.

E-5 should be the most important End. If we do not have diversity in our practitioners, how can we ensure we are making decisions as engineers that consider the diversity of the population.

PLATFORM PART 3 - THE COUNCIL

Council sets out the core characteristics of what it considers to be a good councillor in Clause 1 of GP-6. What is, or should be, the most important characteristic of a good councillor and why?

1.4 Moral courage and willingness to value reasonable risk and innovation that further the organization.

Without this core characteristic, it would be difficult for Council to create meaningful change and advancement towards its long-term goals. Courage is necessary in a good councillor so

they may speak up and represent the membership as a whole.

PLATFORM PART 4 - THE CANDIDATE

Please provide any additional information you would like as to why you would make a good councillor.
