

## Call for Abstracts

From October 16 - 19, 2018, Engineers Geoscientists Manitoba will host its annual conference, *Ingenium*, at the RBC Convention Centre in Winnipeg. *Ingenium* is a premier professional development opportunity for the engineering and geoscience community in Manitoba, with participants representing a cross-section of the 8,200 practitioners who work in the province's private and public sectors.

On October 18, 2018, *Ingenium's* Professional Development Seminars will take place. The Association welcomes abstracts for presentations on any topic related to engineering and geoscience and the professionals which practise in those fields.

In particular, we welcome presentations which explore:

- Case studies of successful applications of new strategies or technology in Manitoba
- Resiliency and climate change
- Technical presentations on emerging technologies
- Industry trends
- Competency skills benefitting engineering and geoscience professionals

Please submit a half-page abstract, outlining the presentation proposal, along with the presenter's name, contact information, and brief biography, to Gemma Keatch, Communications & Events Coordinator, via email to [GKeatch@EngGeoMB.ca](mailto:GKeatch@EngGeoMB.ca) Abstracts must clearly describe the content of the presentation.

Both Engineers Geoscientists Manitoba members and non-members are invited to submit abstracts.

Deadline for submissions is **Friday, April 27, 2018**.

Final decisions regarding presentations selected for inclusion in the conference will be made by May 30, 2018.
