

STRUCTURAL ENGINEER

COMPANY: ROCKPORT COMMERCIAL INC.

LOCATION: WINNIPEG, MANITOBA

COMPANY WEBSITE: <https://rockportgroup.ca/>

CLOSING DATE: OPEN UNTIL THE POSITION IS FILLED

ABOUT US:

Rockport Commercial is the vertically integrated builder and general contractor within the Rockport group, operating exclusively in partnership with RIG. By dedicating its resources, capital, and skilled workforce solely to in-house projects, RCI ensures a highly streamlined and efficient construction process from concept through completion. This focused structure enables tighter cost control, enhanced quality oversight, and seamless coordination across all divisions. With full alignment between development and construction teams, RCI delivers projects with greater precision, accountability, and consistency, supporting Rockport's long-term vision for performance-driven, high-quality developments.

POSITION OVERVIEW

We are looking for a P.Eng who is tired of the status quo and wants to **lead the engineering function** within a vertically integrated builder. You will have a seat at the table, helping us refine how we build from the very first sketch.

KEY RESPONSIBILITIES

- Develop structural designs for multi-family residential buildings and commercial spaces, ensuring compliance with local codes and regulations.
- Perform structural analysis using software and manual calculations to ensure safety, stability, and durability.
- Work closely with architects, project managers, and other engineering disciplines to integrate structural designs into overall project plans.
- Participate in project meetings, providing technical expertise and guidance.
- Assist in the preparation of project documentation, including specifications, reports, and proposals
- Monitor construction progress and provide on-site support to ensure adherence to design specifications.
- Conduct field inspections and assessments to verify the integrity of structures during construction and after completion.
- Ensure that all structural work meets quality standards and is completed on schedule.

QUALIFICATIONS AND SKILLS:

- **Bachelor's degree** in Civil or Structural Engineering from an accredited institution.

- **Professional Engineer (P.Eng)** designation in Manitoba (Engineers Geoscientists Manitoba).
- **Independent Practice Experience:** Demonstrated experience working independently as a P.Eng, including the ability to take full professional responsibility for structural designs and documentation.
- **Strategic Role Development:** Proven ability to proactively develop and expand the structural engineering role, including streamlining processes and contributing to the growth of the department.
- **Minimum of 5 years** of experience in structural engineering, with a strong focus on multi-family and commercial construction projects.
- Ability to provide the ‘final word’ on structural integrity within our internal project teams.
- **Proficiency in technical software** such as Revit, AutoCAD, and structural analysis programs.
- **Deep knowledge** of the Manitoba Building Code, national standards, and industry best practices.
- **Excellent problem-solving skills** and a high degree of attention to detail.
- **Strong communication and interpersonal skills** to effectively lead collaborations with team members and stakeholders.
- **Project Management:** Ability to manage multiple projects simultaneously while consistently meeting deadlines.
- **Proactive Mindset:** A self-starter approach to identifying potential issues and implementing effective, long-term solutions.

LIFE AT ROCKPORT

We aren't a rigid corporate firm; we are a tight-knit, collaborative group that values results.

- **Own the Role:** As our Structural Engineer, you aren't just a reviewer—you are the authority. You'll have the autonomy to build this department's standards from the ground up.
- **Work-Life Perks:** We keep it practical and fun. Enjoy free on-site parking (no downtown garage fees or long walks in the winter), a dog-friendly office, and regular staff parties to celebrate our wins.
- **Health & Flexibility:** We offer a comprehensive health plan paired with a Health Spending Account to give you the flexibility to use your benefits where you actually need them.
- **Winnipeg Roots:** Work on the projects that are literally changing our city's skyline, including major multi-family and commercial developments.

HOW TO APPLY

If you are ready to lead our engineering function and help shape the future of Rockport, we want to hear from you.

Please send your **resume and cover letter** to **Dayna** at dayna@rockportgroup.ca.

For any **questions** regarding this position, please contact us at the same address. We thank all applicants for their interest; however, only those selected for an interview will be contacted.
